HOLLYWOOD FILM OFFICE of MICHIGAN - NOW OPEN

The Hollywood Film Office opens an office in Detroit to facilitate and support the onslaught of future film productions aiming to take advantage of the new state tax incentives.

DETROIT, MI MARCH 31ST 2008

As the buzz continues to grow around Michigan's aggressive film incentives in Hollywood, the logistical realities of handling the influx of new movie productions are beginning to move to the forefront. The Hollywood Film Office, founded by Detroit, Michigan native Bruce Wayne Gillies, is positioning itself to accommodate this transition by opening a HFO branch office in Detroit. In addition to providing production services the Hollywood Film Office of Michigan will train film production personnel and operate film production facilities throughout the state.

The Hollywood Film Office of Michigan plans to implement its streamlined approach to below the line production services in the Detroit area and empower its local personnel while at the same time offering out-of-town productions a familiar and proven Hollywood movie making experience. Mr. Gillies is ready to offer his home state what HFO currently offers to Los Angeles indie productions; cost effective studio support for the independent film maker.

HFO will be sure to represent this new angle at the Location Trade Show Expo 2008 held this April 10-12, 2008. In the meantime HFO of MI can be reached on our new Detroit office phone number 313-877-5251 or info@hollywoodfilmoffice.org.

The Hollywood Film Office of Michigan is confident and excited for the future of Michigan filmmaking and making movies move.
